

Solar Eclipse Safety

1. There are certain inherent risks, dangers and hazards, known or unknown, associated with viewing the Sun directly.

2. The total solar eclipse on April 8, 2024, including but not limited to permanent eye damage and other bodily injuries.

3. Students are advised to be present in the vicinity of Park 574 on April 8, 2024.

4. Solar glasses only ISO 12312-2 certified (those approved by the American Astronomical Society) must be worn at all times while viewing the Solar Eclipse on April 8, 2024. For more information, AAS.org

5. Adult supervision is required in accordance with the order of the school to be used correctly. Please remind your child that the solar glasses must remain in their "pink bag" until the eclipse.

6. Never look at the Sun without solar glasses, as permanent eye damage may occur. Regular eyeglasses are not a safe alternative.

7. Never view the sun through a telescope, binoculars, or camera without appropriate solar filters.

8. Do not use your solar glasses if scratched, torn, or otherwise damaged.
